

## **2025-2026 TRUSTEE CANDIDATES**

### **Kevin Meyer**

Professionally, I am a dedicated science educator with over twelve years of experience, eight of which have been teaching the Dansville district. Outside the classroom, I am an avid outdoorsman who finds peace and enjoyment in nature. Whether hiking local trails, hunting, or simply spending time outside, I value the clarity and connection the outdoors provide.

As a lifelong learner, my children and I are frequent visitors to the Dansville library, where we take full advantage of its resources. Reading is a central part of our lives. We can frequently be found in the library, either flipping through the new periodicals, picking up the titles we've requested through the OWWL system, or pursuing the books in the ever-expanding catalog. I believe in the power of knowledge and strive to pass that passion on to my children, students, and the community.

Blending a love of science, education, and the outdoors, I am constantly exploring and learning while encouraging others to do the same.

### **Rachele Sick**

My husband Kevin and I established Dansville as our hometown 21 years ago, but as a child, I also have fond memories of going to the Dansville Public Library. As a mom of three, our family has spent countless hours at Storytime, Movie nights, Summer Reading Club, various events, and even just meet ups with friends for time with books, toys, and conversations. I believe the DPL is a vital part of our community as it offers free access to books, Internet, materials, programs, and so many resources that many may otherwise not have. It truly is a place where knowledge grows for everyone!

As a teacher, I have been a supporter and promoter of Library events, sharing information with families with young children. I visit DPL regularly to peruse the children's section for books to use in my teaching. I love connecting with OWWL online for additional books for my family, students, and I! I believe Trustees are "the keepers of the library," finding ways to not only maintain the Library and its resources, but to help it grow! As a teacher, mother, and active member of many community groups, I believe I have a good idea of our community's wants and needs and intend to use that knowledge to promote current programs and help create new ones as well.
